EDITORIAL

Thanks to the trust you have placed in us, Diam Bouchage is the world leader of technological cork closures. We design, manufacture and market technological cork closures for still wines, sparkling wines, and spirits.

More than just an ordinary closure, a cork is the winemaker's ultimate oenological act. It must allow the wine to fully develop in the bottle while respecting the originally intended aromatic profile.

Our Mytik Diam range offers an unrivalled closure solution. The consistent mechanical properties of our corks give you absolute peace of mind when it comes to the risk of dry veins, cork hardening, disc breakage, shrinkage, etc.

Our corks are also acclaimed for their ability to preserve the purity and freshness of your wines via perfectly controlled oxygen management.

From Mytik Diam 3 to Mytik Diam 10, choose the cork which best corresponds to your sparkling wine.
